BACKACHE IS
DISCOURAGING

But Not So Bad If You Know How to
Reach the Cause.

Nothing more discouraging than a
constant backache. Lame when you
awaken, pains pierce you when you bend
or lift. It's hard to work or to rest.
Backache often indicates bad kidneys.
Norway people recommend Doan's
Pills. Read this case.

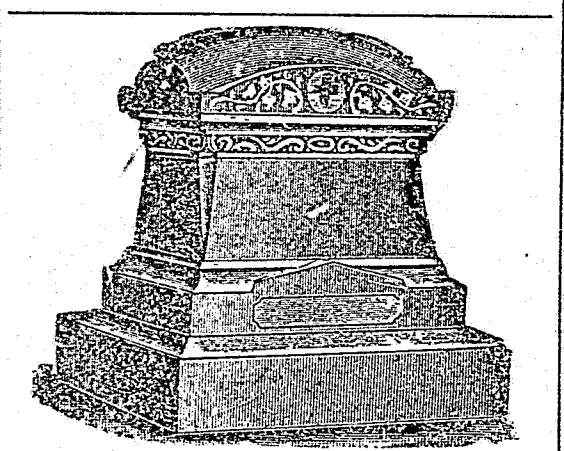

Mrs. G. D. Frost, 6 Tucker St., says:
"Doan's Pills helped me wonder-
fully and I take pleasure in recom-
mending them. My back gave me trouble
and there seemed to be a deep seated pain
across the center of my back. My kid-
neys didn't act regularly and in other
ways showed signs of disorder. As
Doan's Pills had been used in the
family with good results, I decided to
try them and sent to Noyes Drug Store
and got a box. After using them, the
trouble left me entirely."

They Paid \$200,000,000

for Studebaker cars last year

Find out why folks did it

LAST year 145,000 people paid over \$200,000,000 for Studebaker cars.

The demand for these cars has almost trebled in three years. It has become the sensation of Motordom.

There is a new situation in the fine-car field. You should learn what it means to you.

Studebaker had to lead in this field. This concern has led in its lines for two generations. Any other place would be unfitting.

This is how we became the world's largest builders of quality cars.

\$90,000,000 assets
Studebaker has \$90,000,000 of assets. Of this \$50,000,000 is invested in modern plants and equipment.

We have spent \$32,000,000 for new plants and equipment during the last five years. So they are modern and efficient. They contain 12,500 up-to-date machines.

We have \$8,000,000 in drop forge plants, \$10,000,000 more in body plants. So we build complete cars without paying other makers profits.

We spend \$500,000 yearly on an engineering staff. There are 125 skilled men employed in our department of Research and Experiment. They make 500,000 tests per year.

We employ 1,200 inspectors. Each Studebaker car must pass 30,000 inspections during manu-

Then on some steels we pay makers a 15 per cent bonus to insure exactness in them.

Every Studebaker car is Timken-equipped. The Special-Six and the Big-Six have more Timken bearings than any car selling under \$5,000 in America. The Light-Six more than any competitive car within \$1,000 of its price.

We use genuine leather upholstery.

We use Chase-Mohr for the closed car upholstery. Some good upholstery would cost \$100 less.

To curb vibration, we machine all surfaces of crank shafts, as was done in Liberty Airplane Motors. Very few cars do that.

How such prices?

How can we give such extra values—our scores of them—yet sell at our low prices?

Because these values brought us buyers—145,000 last year. The major extra costs are divided by enormous output.

Let us show you the extras you get, because of these matchless facilities.

Learn Why 145,162 Bought Studebakers in 1923.

Studebakers hold the top place in the fine car field today.
In 1919, the public paid over \$80,000,000 for 39,356 Studebaker cars.
In 1920, the public paid over \$100,000,000 for 51,474 Studebaker cars, an increase of 31% over 1919.
In 1921, the public paid over \$120,000,000 for 66,643 Studebaker cars, an increase of 29% over 1920.
In 1922, the public paid over \$155,000,000 for 110,269 Studebaker cars, an increase of 66% over 1921.
In 1923, the public paid over \$201,000,000 for 145,162 Studebaker cars, an increase of 32% over 1922.
In 1924, business has opened with Studebaker as never before.
Learn why all these buyers preferred Studebakers.

facture before it leaves the factory.

Those enormous facilities enabled us to produce the utmost in a car. And we had the will to do it.

No stinted costs

We never stint on costs. Every steel used is the best steel for its purpose, regardless of the price.

RUN-DOWN WEAK, NERVOUS

Benefited by First Bottle of
Lydia E. Pinkham's Vegetable Compound

Lancaster, Pa. "After I was married I became terribly run-down and was weak and nervous. My sister-in-law told me to try Lydia E. Pinkham's Vegetable Compound. My husband got me a bottle at once, and it did me so much good that I kept on taking it. I began to feel well and strong again and was able to do my housework up to the time my baby was born—a nice fat little girl in the best of health. I surely am recommending the Vegetable Compound to my friends when they have troubles like mine, and I am perfectly willing for you to use these facts as a testimonial."
—Mrs. FRANK H. GRANT, 533 Locust Street, Lancaster, Pa.

Women should heed such symptoms as pains, backache, nervousness, a run-down condition and irregularity, as they indicate some form of female trouble.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for all these troubles. For sale by druggists everywhere.

A BANK NEVER TRAVELS

Individual Executors are sometimes called out of town on personal business when important estate affairs need their attention.

A bank, however, never travels. When an estate in its charge requires skilled attention, the corporate Executor is always at hand to give it. There are no personal interests to interfere; estate administration is its business. This is an important point for consideration when selecting an Executor. Our officers will be glad to answer your inquiries.

SOUTH PARIS

Winfield Scott Ripley

Winfield Scott Ripley, who died Tuesday, Jan. 29, at the residence of his son, W. S. Ripley Jr., in Wakefield, was born at Paris, Me., Feb. 3, 1839, the son of Colonel Orison and Hannah (Maxim) Ripley. He was the ninth descent from William Ripley of Wymondham, England, who settled in Hingham in 1638. He was also descended from Isaac Allerton and Richard Warren of the Mayflower and had three ancestors in the Revolution. From his earliest years he was interested in music, attended the singing schools of the period, played the violin in church and the tenor horn in brass band. After a week's work on the farm he was accustomed to walk a distance of six miles to attend the band rehearsal. At the outbreak of the Civil War he enlisted in a company raised by his father. With some other musicians of the vicinity he went to Nashville, N. H., where they all enlisted in the band of the Seventh New Hampshire Volunteers, but after a month's service regimental bands were replaced by brigade bands and Mr. Ripley came to Boston where he enlisted as a musician in the Navy. His service was mainly at Charleston Navy Yard on the receiving ship Ohio. His term being completed, he settled in Charleston and engaged in the musical business, playing in bands, orchestras, teaching bands and writing music.

At that period there was not much band music printed and for a number of years he kept several copyists busy turning out manuscript music for the use of various bands that he was teaching, as well as for sale. At a later period he published many pieces and early conceived the idea of the memorial marches and memorial hymns, especially for use on Memorial Day. The late Mrs. Henrietta Teague of Wakefield wrote the words for several of his memorial hymns. Another specialty of his was the Serenade, the principal ones being "Pleasant Dreams," and "The Soldier's Dream," which have enjoyed a large sale and are still much called for. While in Charleston, he was music director of the Progressive Lyceum and upon leaving there he was presented with a silver water set by the Lyceum. He taught bands in various parts of New England and at times was teaching every weekday night. In 1868 Mr. Ripley moved to Wakefield (then South Reading), immediately established a band, and the band was in evidence at the celebration when the name of the town was changed a little later.

He always had a diversity of interests. He served as conductor of the Mozart Orchestra, a loyal amateur organization for a number of years in the early nineties and he conducted the Community Choral Society. He was interested in gardening, had been president of the Wakefield Horticultural and Agricultural Society and a judge of fruits and vegetables in many places at county fairs, and was the originator of several varieties of grapes, peaches and potatoes. Mr. Ripley was a member of the Universalist parish, and was also interested in various Spiritualistic societies.

Mr. Ripley was married at Woodstock, Me., April 6, 1862, to Mary J. (Bertram) Dated. She died June 24, 1912. Mr. Ripley is survived by two sons, Winfield S. and Aiden P. Ripley, both of Wakefield, by two grandchildren, Aiden L., an artist, now in London, and Lurline O. Ripley of Wakefield. There is also a sister, Mrs. Flora E. Pulsifer of West Sumner, Me., and a brother, Francis B. Ripley, of Weston, Mass.

Keniston-Cook

Word has been received of the marriage of Leslie B. Keniston formerly of South Paris and Miss Jessie F. Cook of Glasgow, Scotland, at Seattle, Washington, on Jan. 19. Mr. Keniston is the son of Geo. I chanced to read about "Fruit-a-tives" and "Sooths Salvo" and used both. Now, I am entirely free of Eczema and my flesh is clear and smooth." Dr. E. N. Olzenham, Dover, N.H.
